## TO THE TRADE:

We take pleasure in presenting our 1930 contract and general trade list.

An institution grows as it is capable of serving well its many customers: WE serve the discriminating trade what they demand: MERIT FLOWER SEEDS.

We are justly proud of the esteem and favor our stocks have attained, and devote all our energies to the perfecting of strains and the breeding up of new varieties.

We extend to the seed trade a most cordial invitation to visit our experimental and trial grounds and our extensive ranches, and personally acquaint themselves with the purity of our cultures.

We again welcome the opportunity to thank our patrons for their generous support in the past and will do our utmost to justify their continuance.

## GENERAL CONDITIONS OF DELIVERY

Should the outcome of the crop be lower than our estimation, orders will be filled pro rata only.

Crop failure or any other cause beyond our control releases us entirely from delivery.

## WALLER-FRANKLIN FORMULA MIXTURES

As the result of years of experimenting, our research department has perfected certain color blends of various mixtures.

These mixtures were subject to the criticism of visiting seedsmen for several years and when unanimously approved were considered MASTER FORMULAE.

Mixtures grown from these Master Formulae are listed in this catalog as "WALLER-FRANKLIN FORMULA MIXTURES."

## PHOTOGRAPHS

We have a large collection of photographs of annuals and perennials suitable for catalog work and we will be pleased to send selections for your inspection. Price \$2.00 per print.

### THREE NEW EARLY FLOWERING SWEET PEAS

**VALENCIA**—Color, bright orange, sunproof, of a slightly softer tone than Orange King but having what all other orange Sweet Peas lack—Immense Vigor in growth, length of stem and size of blooms. Where other orange Sweet Peas throw only two and three blooms to a spray, VALENCIA throws three and four. Price per oz. \$1.00, per  $\frac{1}{4}$  lb. \$3.00, per lb. \$10.00.

**MAJESTIC ROSE**—Color, deep brilliant rose pink of the popular color of Zvolanek's Rose, but of a richer, deeper tone. The color in MAJESTIC ROSE is more evenly diffused than in any other Sweet Pea in this color class and lacks the white at the base of the standard and wings which others of this color have. This improvement in color gives it a brilliance which is quite new. In vigor of growth, length of stem, size of bloom, MAJESTIC ROSE excels all other early Sweet Peas. Price per oz. \$1.50, per  $\frac{1}{4}$  lb. \$4.50, per lb. \$15.00.

**BLUE BONNET**—Color, a fine deep blue. The color is evenly distributed, with not the slightest trace of mauve. By careful comparison the Color and Vigor of BLUE BONNET are far superior to any other blue on the market. It has very long stems with four blossoms to a stem. Price per oz. \$1.00, per  $\frac{1}{4}$  lb. \$3.00, per lb. \$10.00.

**COSMOS EARLY EXPRESS PINK**—An extra early Cosmos flowering in from forty-five to fifty days from the time seed is planted. The plant grows about two and one-half to three feet high and is covered with medium sized bright pink flowers. Price per oz. \$0.50, per  $\frac{1}{4}$  lb. \$1.50, per lb. \$5.00.

**LARKSPUR EMPEROR BRILLIANT CARMINE**—A delightful addition to this group, which grows only about twenty-four inches high. The color is identical to Lustrous Carmine in the Tall Branching group and makes a good companion to Pink Delight now so popular. Price per oz. \$0.50, per  $\frac{1}{4}$  lb. \$1.50, per lb. \$5.00.

**LARKSPUR WHITE SPIRE**—A new dazzling pure white double Larkspur with the improved upright delphinium-like habit of our last year's novelty—Exquisite Pink Improved. **VERBENA DWARF COMPACT FIREBALL**—A dwarf compact Verbena about six inches high literally covered with bright scarlet blooms, excellent for borders, beds, or pot plants and comes absolutely true from seed. Price per oz. \$2.00, per  $\frac{1}{4}$  lb. \$6.00, per lb. \$20.00.

### LARKSPUR EXQUISITE PINK IMPROVED

Award of Merit Royal Horticultural Society, Wisley Trials, 1929

Exquisite in color. Perfection in form. Purity of strain.

Eight years ago we introduced Larkspur Exquisite Pink; it at once became the standard of excellence in Larkspurs in spite of the fact that the strain was not true.

After a further eight years of effort we have perfected a new strain, true Exquisite Pink in color with a wonderful improved new form. An upright habit similar to our perennial Delphinium and best of all, this new improved strain comes practically 100% true. The color is a beautiful soft pink shaded salmon. Price per oz. \$0.80, per  $\frac{1}{4}$  lb. \$2.50, per lb. \$8.00.

### LARKSPUR EXQUISITE ROSE

Award of Merit Royal Horticultural Society, Wisley Trials, 1929

A beautiful shade of rose pink, several tones deeper than Exquisite Pink Improved but with the same new improved Delphinium form and coming quite true. Price per oz. \$0.80, per  $\frac{1}{4}$  lb. \$2.50, per lb. \$8.00.

### NEW EARLY FLOWERING SPENCER SWEET PEA

**PINK CHARM**—A light rose pink, practically self-colored with wings and standard somewhat lighter toward the outer edges, giving the whole a most charming effect. A vigorous grower, with a long blooming period and when other varieties are through blooming, Pink Charm is still good. A splendid variety for florists. Price per oz. \$0.50, per  $\frac{1}{4}$  lb. \$1.50, per lb. \$5.00.

## CARNATION CHABAUD'S GIANT IMPROVED

A new acquisition in the line of Carnations; coming into bloom five months from seed and continuing to bloom throughout the Summer. The plants are of robust upright habit; they form ten to twenty stalks, bearing huge flowers of fine form; they come about 90% double, are quite true and are highly clove scented.

This group should not be confused with the old Chabaud Everblooming.

### CARNATION CHABAUD'S ENFANT DE NICE

Carnation Enfant de Nice is the result of a cross between Carnation Chabaud's Giant Improved and Carnation Perpetual. The plants are of robust, upright habit, with long, strong stalks bearing flowers 2½ to 3 inches in diameter. This strain is magnificent and is so far, the last word in annual Carnations. The color comes about 75% true from seed and about 90% of the plants come double.

### COLOR CLASSIFICATION

In view of the numerous recent Sweet Pea introductions, it seems necessary to set up a classification according to color.

Every year we make careful color comparisons of the older varieties and the latest introductions and are in an eminent position to judge their respective merits.

We now take pleasure in submitting a color classification of the Standard Spencers.

The variety we consider best in each color class is indicated by an asterisk (\*).
